The NEX-GEM LAB

Idaho Steel Products Innovation

- Cutting-edge machine designed to create new product ideas for smaller production runs.
- With its smaller footprint, it is perfect for those who want to experiment with new food concepts without having to invest in a large and expensive production line.
- Our machine is incredibly versatile and can create a wide variety of products, including puffs, waffles, patties, rings, tots, and even plant-based protein alternatives.
- Ability to produce products of different shapes and sizes. Easily adjust the machine to create cylinders, squares, or any other shape that suits your creative vision.

Ideal for Research & Development

With its user-friendly interface and intuitive controls, you can quickly and easily test new products.

In addition to its efficiency and versatility, the NEX-GEM LAB is also built to last. Our machine is made with high-quality materials and is designed to withstand the rigors of daily use. It is also easy to clean, ensuring that your production line remains hygienic and safe.

With the NEX-GEM LAB, Idaho Steel is confident that you will be able to create exciting new products that will delight your customers and keep them coming back for more.

*Designed to Create New Product Ideas
Idaho Steel Products provides you with the tools
To Push the Boundaries of food Innovation*
